About:

I started my engineering journey with a diploma in Mechanical Engineering, to set out a path of innovation and excellence.

I began my business journey in 1985 as a proprietary concern. Later, in 2005, it was transformed into the company PILOTSMITH INDIA PVT. LTD. Subsequently, in 2013, I incorporated RED 2 GREEN INDUSTRIAL SCIENCE PVT LTD. These enterprises stand for research & development, specializing in the design and manufacturing of machinery for the Food and Pharma Processing Industries.

Throughout the decades, my visionary leadership has reached our companies to the forefront of technological advancement. Our portfolio have multitude of patented equipment that has revolutionized various sectors. Notably, in the 1990s, I have played a pivotal role in industrial automation, particularly in the manufacturing processes of Kerala's Puttu powder. Our expertise extends to automating processes for health mix powders, Virgin coconut oil projects, Spices extraction industries, Cocoa to chocolate plants, and pharmaceutical industries.

As pioneers in this field, My companies have gained acclaim both nationally and internationally. Our esteemed clients includes Hindustan Lever, ITC, Unibics, TATA, Ajinomoto, and spiritual leader Sri Sri Ravishankar, along with a plethora of major brands in South India such as Eastern, Synthite, MTR, Aachi, and Ajmi. With a client base exceeding 25,000 and seven state-of-the-art manufacturing units strategically located across the country, we continue to set the standard for excellence in the industry.
